

Daily Log for Membrane Machines

Nomenclature:

Press= pressure

Conc= concentrate, Qc

Permeate= permeate, Qp

Temp= temperature

Cond= conductivity

Machine Model #:

Serial #:

Name of Company:

Period of this Sheet:

Note: please record all calibrations of instruments or other occurrences related to this system

Date and Time								
Pre-filter pressure (psi or bar)								
Post-filter pressure (psi or bar)								
Primary pressure (psi or bar)								
Final Pressure (psi or bar)								
Feed Water Temp (°F or °C)								
Perm Flow (gpm or lpm)								
Concentrate flow (gpm or lpm)								
Recovery, Qp/ (Qp+Qc)								
Feed Cond (µS)								
Conc Cond (µS)								
Perm Cond (µS)								
Average Cond (µS), (Cf+Cc)/2								
Filter Change (✓)								
Clean (✓)								
Feed Chlorine (ppm)								
Feed water hardness (ppm)								
Operators Initials
